

***OSCAR GALILEA SAN BLAS***

***PhD student of the Enriched Stable Isotopes research group***

### **Academic Studies**

BSc in Chemistry, University of the Basque Country (2010)

Chemist, Biochemist and structural analysis Master's degree, University of Oviedo (2011)

### **Contact**

**Address:** Department of Physical and Analytical Chemistry, Faculty of Chemistry, University of Oviedo.

Julián Clavería, 8, 33006, Oviedo, Spain.

**Telephone:** +34 985 105001

**Email:** [oscargalileasanblas@gmail.com](mailto:oscargalileasanblas@gmail.com)

### **Research topics**

#### **Research Lines:**

- Application of enriched stable isotopes in clinical chemistry and metabolic studies.

#### **Mass Spectrometry Experience:**

**Mass Spectrometers:** quadrupole (Q), triple quadrupole (QqQ), multicollector (MC), , double focusing.

**Ionization Sources:** Inductively Coupled Plasma (ICP), Electrospray (ESI), Electronic Impact (EI), **Sample introduction and/or separation techniques:** Liquid and Gas Chromatography.

**Fields:** clinical, biochemical and metabolomics analysis
